Clergy Clinic in Family Emotional Process

With today's rising level of anxiety in society and its resulting impact on families, there is little doubt that such anxiety will impact the church with increasing intensity in the years ahead. The resulting elevation of pressures within congregations and the increasing demands which that places on clergy make it imperative that leaders step back occasionally from the fray to assess their own

residence within the Synod of Lakes and Prairies and be active members in a Presbyterian Church (U.S.A.) congregation.

The synod is committed to partner with students and schools for leadership development and quality instruction of clergy and lay persons for lifelong service. Application awards are based on personal achievement, financial need and recommendation from a teacher and pastor.

Apply by October 7, 2019

The key to happiness is being rich, successful, and beautiful...right? Martin Thielen, best-selling author of *What's the Least I Can Believe and Still Be a Christian?*, insists that this is far from the truth. Happiness, Thielen argues, does not come from external factors like getting a job promotion or finally reaching your goal weight. Rather, happiness is an *inside* job.

In brief, easy-to-read chapters, Thielen offers ten traits of happy and fulfilled people. Using psychological research, personal anecdotes, and Scripture, Thielen begins the path to contentment by showing how life circumstances—including income, health, physical appearance, and marital status—only account for about 10 percent of a person's overall life satisfaction. From there, he offers alternatives to the frequent methods we use to make ourselves happy. Instead of aiming to make more money, Thielen contends that expressing gratitude and cultivating optimism are surer paths to joy. Rather than focusing on constant advancement in our careers, let's practice our ability to forgive, to be generous, and to use trials as growth opportunities. These lessons, and much more, help readers who may be dissatisfied in their lives see that authentic contentment is closer than they ever imagined
